16TH IFOAM
ORGANIC WORLD
CONGRESS
MODENA, JUNE 2008

CULTIVATE
THE FUTURE.

The whole of the Modena community will welcome its guests at the end of June 2008.

The program will allow participants not only to attend conferences and modules of interest, but also view how local production and food systems work. The congress will have several venues, with parallel themed conferences held in locations related to local production.

The congress will be structured around the Principles of Organic Agriculture, and will address a wide range of issues, including animal production, vegetable crops, cereals and organic seeds, training, rural development, GMOs, viticulture, textiles, development policies, markets, bio-energy, cosmetics and body care.

EVENTS, CULTURE, TOURS

Leisure activities will be provided for participants with different events organized to round out the Conference program.

The Modena area offers a wealth of opportunities and many interesting things to do: art, entertainment, sport and nature.
